

**Catalog Number: PowerSlide**

### **Applications:**

RV site pedestal can provide up to 200 amp power for sub-metered or utility metered parks or resorts. Added amperage allows for connection to outbuildings such as casitas and coach houses. External lighting loads can also be connected to pedestal.

### **Description:**

All-In-One design brings power, metering, communications and water into one attractive, compact unit. Pedestal is molded from a high-strength polymer resin to withstand corrosion and provide a long lasting durable product for today's modern RV parks and campgrounds. The aesthetically pleasing Sandlewood color provides a first class look. Unique three option mounting. Choose Slide Mount, Pad Mount or Direct Burial.

### **Specifications:**

- UL listed 125 amp 120/240 power outlet
- Lockable type 3R molded enclosure for durable outdoor use. Approximately 12" x 12" x 40"
- #6-350MCM loop feed lug landing assembly
- 125 Amp Four pole circuit breaker interior
- Optional second 125 Amp interior available for additional loads
- Both interiors accept BR type plug in breakers.
- 50/30/20 amp GF receptacle & circuit breaker configuration
- 4 Watt LED internal light with photo electric control

### **Optional Features:**

- Electronic meter for sub-metered or remote read applications
- Optional Ring-less or Ring-type meter socket with line side barrier for utility connected applications. (Single sided only)
- Configurable for single or double sided applications
- Communications: CATV or Ethernet
- Single or dual water hose bibs, back-flow preventer
- Mounting Options: Pad Mount, Direct burial or Post Mounted (which allows for quick disconnect in flooded areas)

**Open 8:30AM - 5PM Coast to Coast**
